Te Pōkai Tara Universities New Zealand

Thinking about university?

A guide for New Zealand students, parents and whānau

2020

Nau mai piki mai tāuti mai

Welcome to 'Thinking about university? A guide for NZ students'.

This guide is to support students and their whānau when thinking about studying at one of New Zealand's eight universities. It is a starting point to help you plan how to successfully move into university life.

Once you've read this guide you will be able to visit each university website for more detailed information.

This guide has been collated by Universities New Zealand on behalf of the eight universities. For more information visit

universitiesnz.ac.nz

or contact us at studentguide@universitiesnz.ac.nz

Information for international students is on our website at

universitiesnz.ac.nz/international-students

Disclaimer – Although every effort has been made to ensure accuracy, it is recommended you check university websites for the latest information.

Universities New Zealand – Te Pōkai Tara is the representative body for New Zealand's eight universities.

Why a university education?

He aha e ako ai ki te whare wānanga?

Think of a university education as an investment. It opens more options and opportunities for your future. We know that graduates from universities are happier, healthier and earn more.

University is also an opportunity for you to

NGAGE Me aro

With leading teachers and researchers from a top 3% world-ranked university

Through internships and employers and industry work placements with

Specialist knowledge. Critical thinking, research and analytical skills. Communication, interpersonal, and information technology skills.

Study abroad and international student exchange programmes

Me whakapakari

Cultural understanding, global awareness and community involvement

ISCOV Me whakahura

Student life – student groups, clubs, activities

Choosing a university Ko tēhea te whare

A little planning will help you make the most of the opportunities at university.

All eight New Zealand universities are ranked in the top 3% in the world and offer quality tertiary education and student support – so they're all good options!

Some things you may want to consider:

- What are my interests and strengths? What do I love doing? What are my future goals?
- Which universities offer what I want to study?
- Where is the campus located? Is it in a city, out of town or close to home?
- What is the student population?
- What is the vibe of the university?
- Does the university have all the facilities I'd want?
- Is there university accommodation Halls of Residence?
- · What student support services are available?

wānanga

A university is a community, offering a range of support services and facilities on campus to enable you to achieve at your best, and to keep you motivated while you're on your study journey. Even if you are considering studying by distance, you still have access to a range of support services.

Introducing New Zealand universities Nei ngā whare wānanga o te motu

New Zealand's eight universities offer a wide range of study opportunities and all are ranked within the world's top 500 (3%).

Studying at a university develops not only your professional skills but also important life skills such as analysis, critical thinking, communication and innovation. You will take these through your whole career, not just your first job.

Te Whare Wānanga o Tāmaki Makaurau

The University of Auckland

New Zealand's leading university

Main campus: City Campus, Auckland

Other campuses: Tāmaki Innovation Campus, St Johns; Newmarket Campus; Epsom Campus;

Grafton Campus; Manukau

Tai Tokerau Campus: Whangarei

The University is ranked as New Zealand's leading university with degrees that are world-class and internationally recognised. Auckland's research-led programmes attract a high level of teaching professionals. You will learn from people who are passionate about their chosen fields.

Māori distinctiveness at Te Whare Wānanga o Waikato is an integral part of the student experience for all students on campus. From the new student pōwhiri to an official graduation on the marae, there are events in which all students can participate.

Māori students currently make up 23% of our student population, the highest of any other university, which means our students are highly visible around campus. There are Māori initiatives available to support Māori students at all levels of study which include Faculty and Tauranga based Māori Mentors, a student leadership programme and graduate support. Our Māori student groups are also active across campus leading events which further promote whanaungatanga between new and returning students.

Waikato is also the only university which offers a full immersion te reo course (Te Tohu Paetahi) and the programme has paved the way for the revitalisation of te reo Māori for more than 25 years.

With Māori academic excellence across the disciplines and support structures to help you achieve, nau mai, haere mai ki Te Whare Wānanga o Waikato.

Piki mai, kake mai, nau mai, haere mai ki Te Kunenga Ki Pūrehuroa

Massey University's Tiriti-led strategy has sparked a new focus on supporting tauira Māori achievement. This includes Te Rau Tauawhi, the Māori Student Centre, with a team dedicated to helping tauira navigate University life and succeed.

Te Pūtahi-a-Toi, the School of Māori Knowledge is the cultural heart of the Manawatū campus, while the Pukeahu Marae development project will provide an exciting cultural and learning space at the Wellington campus.

Tauira Māori are also supported by Māori Student Associations on each campus and Māori student recruitment advisors are available to help with enrolment and career advice.

Te Rau Puawai Workforce Programme provides bursaries and incredibly successful learning support for students in the field of Māori mental health.

The Pūhoro Māori STEM Academy is located at both the Manawatū and Auckland campuses. The programme is designed to guide secondary school students through NCEA, and prepare them for tertiary study across the fields of science, technology, engineering and mathematics.

E ngā tauira Māori

Victoria University of Wellington has a wide range of services to support Māori students. The Māori Liaison Officer can assist you and your whānau with entrance and admission information and course planning. A Māori orientation will also help ease your transition into university study.

Te Herenga Waka Marae is on the Kelburn campus. It is a tūrangawaewae for tauira and staff, providing daily lunches, computer labs and study spaces, and a place for people to practise and celebrate being Māori.

Āwhina, the Māori student support team that works across all campuses and all academic programmes, has staff who can help you with one-on-one advising, study tutorials and wānanga, and mentoring. Āwhina also organises workshops on topics such as applying for scholarships, career development, and connecting with industry.

The Māori Learning Advisor offers one-on-one sessions and workshops to help you develop your writing, study, and assignment skills.

Ngãi Tauira, the Mãori students' association, represents the interests of all tauira Mãori at the university. They also run a range of social and cultural events, as do other subject-based student associations including Ngã Rangahautira (the Mãori Law students' association), Ngã Taura Ūmanga (the Mãori Commerce students' association), and Te Hôhaieti o te Reo Mãori ki Wikitōria (the Mãori Language Society).

What to study and where? Ka ako i te aha, ka ako ki hea?

Universities offer a wide range of subjects to study at undergraduate level. The main undergraduate qualification is called a Bachelor's degree and the subject you choose to specialise in is called your major.

We've put together a list of degrees and the majors offered at each of New Zealand's eight universities to help you decide what to do and where to go.

Qualifications Ngā Tohu

All universities have Foundation pathways for students who need further English language, academic and study skills preparation prior to undertaking undergraduate study. Foundation programmes generally run for up to one year of full-time study.

Bachelor's degree (NZQF level 7)

Is normally three years in duration (full-time) and consists of a prescribed number of papers or courses. Typically, a Bachelor's degree offers a great deal of flexibility, and the opportunity for students to choose a programme that is appropriate for them.

Bachelor's degree with honours (NZQF level 8)

Is a one-year programme of study following a Bachelor's degree or an integrated four-year programme, requiring more specialised study in the chosen major subject and frequently involving some independent research or investigation.

Graduate diploma / Graduate certificate (NZQF level 7)

Is a one-year (full-time) course of study for graduates. Prior learning or experience in the subject matter of the diploma is not always required, giving graduates an opportunity to add a qualification in a different major subject to that of their first degree. A Graduate diploma may also be used as a bridging qualification to specialist postgraduate study.

A Graduate certificate is a half-year (full-time) course of study.

Postgraduate diploma / Postgraduate certificate (NZQF level 8)

A Postgraduate diploma is a one-year (full-time) course of study that builds on the same subject matter in the academic field of a relevant Bachelor's degree.

A Postgraduate certificate is a half-year (full-time) course of study.

Masters' degree (NZQF Level 9)

Is open to those who have completed a Bachelor's degree with good grades, and comprises 1–2 years of advanced study in the student's major discipline.

NZQF LEVEL

QUALIFICATION TYPE

1-4	Certificates
5-6	Diplomas
7	Bachelor's degrees Graduate diplomas and certificates
8	Postgraduate diplomas and certificates Bachelor's degrees with honours
9	Master's degrees
10	Doctorates

Doctorate (NZQF level 10)

A doctorate is normally the highest academic qualification available within a university. The main doctorate is the PhD (Doctor of Philosophy). This degree can be taken in any one of the wide range of subjects and involves original and sustained research under academic supervision. A PhD usually takes at least three years of full-time study.

Conjoint degrees

A specialised programme of study that enables a student to complete two Bachelor's degrees in a shortened time.

Our 'What to study and where?' guide is designed so

Get in: Admission to university Te whakauru mai

How do I get into university? There are a range of different pathways into university. If you need further support, contact the university.

University Entrance through NCEA

University Entrance (UE) is the minimum standard for entrance to a New Zealand university.

To qualify you will need:

NCEA Level 3

Three subjects – at Level 3, made up of:

14 credits each, in three approved subjects

Literacy - 10 credits at Level 2 or above, made up of:

- 5 credits in reading
- 5 credits in writing

Numeracy - 10 credits at Level 1 or above, made up of:

- achievement standards—specified achievement standards available through a range of subjects, o
- unit standards—package of three numeracy unit standards (26623, 26626, 2662—all three required)

Check out the 'Other Admission Pathways' if you've missed out on University Entrance.

For more information on University Entrance, go to NZQA's website www.nzqa.govt.nz/ncea

Te Marautanga o Aotearoa

The University Entrance standard includes approved subjects and achievement standards from the Te Marautanga o Aotearoa. Visit NZQA for more information.

An NCEA Level 3 certificate

14 credits at level 3 in an approved subject 14 credits at level 3 in an approved subject

14 credits at level 3 in an approved subject

Literacy:

10° credits at level 2 or above (5 in reading, 5 in writing)

Numeracy:

10* credits at level 1 or above

*From specified list of standards. See www.nzqa.govt.nz

Other school-leaver qualifications

Universities also accept other school-leaver qualifications for admission to an undergraduate degree:

Cambridge Assessment International Examinations (CAIE)

To be eligible for admission, candidates must achieve the following:

Part A

• a minimum of 120 points on the New Zealand CAIE Tariff (refer table) at A or AS level from any syllabus

groups which are broadly equivalent to those in the list of approved subjects for NCEA, and

 a D grade or better in syllabuses from at least three different syllabus groups (excluding Thinking Skills).

NZ CAIE Tariπ								
A level	AS level							
140	n/a							
120	60							
100	50							
80	40							
60	30							
40	20							
	140 120 100 80 60							

NZ CAIE Tariff

Part B

Literacy and numeracy must be satisfied as follows:

Literacy

EITHER

An E grade or better in any one of AS English Language, Language and Literature in English, Literature in English. A D grade or better will satisfy one of the syllabus requirements of Part A

OF

As prescribed for university entrance with NCEA

Numeracy

EITHER

(i) A D grade or better in IGCSE or GCSE mathematics, or

(ii) Any mathematics passed at AS level. A 'D' grade or better will satisfy one of the syllabus requirements of Part A

OR

As prescribed for university entrance with NCEA

International Baccalaureate (IB)

Completion of the Diploma (minimum of 24 points).

An IB Diploma completed with English as Language A1 at either Higher or Standard Level and including any mathematics subject satisfies the literacy and numeracy requirements for University Entrance.

New Zealand Certificate in Steiner Education (Level 3)

A completed Steiner School Certificate Level 3, including 9 points in each of 3 approved subject areas, 7 points in literacy (4 writing/3 reading), and 9 points in numeracy.

Overseas school-leaver qualifications

Universities accept a wide-range of overseas school-leaver qualifications for admission.

Check the university websites for up-to-date

Additional entry requirements

- Some courses of study require you to have taken specific NCEA-approved subjects and gained a minimum number of credits.
- Some courses of study require you to have taken specific achievement standards in certain NCEAapproved subjects.
- Some courses of study also have other entry requirements such as a portfolio, audition and/or interview.

Selective entry

 Selective entry might apply to some courses of study, especially for those with limited or competitive entry.

Guaranteed or preferential entry scores

- Some universities use a rank score system for guaranteed or preferential entry into some courses of study, especially for those with limited or competitive entry. The score is based on the number of Level 3 credits you gain with Excellence, Merit or Achieved.
- You may still be accepted into a course of study if you don't meet the rank score but meet the University Entrance standard. Check with the university for the specific details.
- Get the right advice: Check with the university to see if the rank score applies to you and how to calculate your score for that university.

Targeted entry pathways

Some universities have special entry pathways for specific student groups e.g. Māori, Pacific and students with disabilities.

OTHER ADMISSION PATHWAYS

University preparation courses

Universities and other providers offer University Preparation courses for students without University Entrance or an equivalent qualification.

Check with the university to see which courses they accept as a suitable entry qualification.

If you didn't get University Entrance this may be an option for you! Contact the university to find out more.

Special Admission for students over 20 (without UE)

If you are over 20 years old and a New Zealand or Australian citizen (or permanent resident) and don't have a University Entrance qualification, you can apply for Special Admission.

Check the university websites for Special Admission application deadlines and what you'll need to provide with your application.

Transferring students

If you're transferring from one degree to another you can apply to have the courses you've already completed credited to your new degree.

Discretionary Entrance

If you are a New Zealand or Australian citizen (or permanent resident) who hasn't continued secondary education beyond Year 12 you can apply for Discretionary Entrance based on your Year 12 results.

You'll need to have met certain requirements in your Year 12 results, including a reference from your school principal (or another suitable person) and you may need to do an interview. Discretionary Entrance is only for admission into a specific course of study, not general admission into a university.

Check the university websites for more information.

University Academic Calendars

A university's Academic
Calendar contains a record of
all the university's regulations,
policies and course
information for the
academic year.

Even if you've started your study, you can move to another institution!

Get sorted – StudyLink, scholarships, accommodation

Me whakarite koe

· Hoto Akoranga

· Karahipi

· Wharepuni

You'll see in the timeline some key things to think about. This section looks at a few of these areas in more detail.

Scholarships Karahipi

Scholarships are a smart way to fund your study. Depending on the scholarship, you might need to provide the following supporting documents with your application:

- Personal statement: academic achievements, leadership, sporting, cultural and community achievements and involvement
- Statement about your study plans and ambitions
- List of accomplishments, awards, leadership positions
- Academic results (e.g. NCEA record of achievement)
- References different scholarships might require different types of references:

- Academic reference: supports your academic achievements and ambitions
- Character reference:
 - supports your personal qualities and non-academic achievements (e.g. leadership, sporting and cultural activities)
 - identify strong referees for each type of reference
 - confirm that they are willing to be contacted for a written reference (these are usually confidential and submitted directly to the scholarship administrators)
 - provide your referee with information about the scholarships you are applying for and the closing dates.

Remember you can apply for as many scholarships as you like, and at multiple universities!

If you are of Māori descent, make sure you check to see your iwi offers education scholarships.

There are lots of scholarships available. Really encourage your rangatahi to apply.

StudyLink

Hoto Akoranga

It's important that you work out how you are going to fund your study and living costs. Here's an idea about what you'll need to apply to StudyLink.

For all the details on the financial support available from StudyLink, go to studylink.govt.nz/starting-study

Student Loans – Help you to pay for your course fees (the compulsory fees charged by your education provider), study materials (e.g. books, computer) and living costs.

Just remember it's a loan. You'll have to pay this back.

Student allowance – This is a weekly payment that can help with your living expenses while you are studying if you are eligible. You don't have to pay the money back BUT there are conditions.

You can apply for student loans and allowances online. Make sure you have:

- RealME account to apply online and access your My StudyLink
- · RealME verified identity

The documents you'll need to provide for a RealME account include evidence of:

- who you are (birth certificate or passport)
- name change (if you've changed your name)
- your bank account number (verified)
- your IRD number.

If you're under 18 you'll need to supply some additional information.

The StudyLink eligibility test is part of the application process. This tells you what you may be eligible for. You'll need to provide the following information:

- Course details (including start and end dates and study break period)
- Citizenship/residency details
- Income information, if applicable
- Parents' income information (if you're under 24) If you have a child or you're over 24 and you have a partner you'll need to provide additional information. See the StudyLink website for more information
- IRD number and tax code

Parents: StudyLink can only give you information about *your* part of your child's application (e.g. your income evidence) unless they have appointed you as their agent.

Halls of Residence

Wharepuni

Halls of Residence (also known as residential colleges) are typically for full-time first-year students. They provide a welcoming community to help you settle into university life.

You will pay rent for your room, and in most cases this will cover, food, power and internet costs. Halls are a great place to get academic support and get involved in social events.

Applications often open around August-September so you'll need to ensure you have all the documentation ready to submit an application. Places are limited.

In most cases, you'll also need to pay a 'bond' or 'deposit' if you accept an offer.

A deposit will often cover things like the bond, administration fees and activities fees. A bond is an advance payment that the Halls of Residence ask students to pay as security to cover any unpaid rent, or damage to the property.

Halls of Residence applications are interested in an applicant's academic achievements and personal qualities and attributes.

You may need to provide statements and information about the following as part of your Halls of Residence application:

- personal statement: academic achievements, leadership, sporting, cultural and community achievements and involvement
- statement about your study plans and ambitions
- list of accomplishments, awards, leadership positions
- academic results (e.g. NCEA record of achievement)
- a reference from your secondary school
- photo-head shot

Scholarships are sometimes available to help with Halls of Residence costs. Check out the universities' scholarship pages!

Accommodation

You may choose to flat rather than move into a Hall. The universities have Accommodation Offices that can help find a suitable property to rent. They can also provide information on costs, lease agreements and finding flatmates.

Study abroad and Summer research student exchange Akoranga kei tāwāhi

scholarships

Karahipi Rangahau o te Raumati

Experience and explore

Study abroad and student exchange programmes are an opportunity to explore and experience overseas study as part of your NZ degree.

- Earn credits towards your NZ degree
- Graduate with international experience
- Pay NZ tuition fees and, if you're eligible, continue to receive StudyLink loans or allowances (see StudyLink for more information).

Explore the world of academic research

7PM: HEAD TO THE REC ROOM FOR THE HALLS 'MOVIE NIGHT'

*To do: register on Student Job Search website and find a job (www.sjs.co.nz)

100 level, 200 level, 300 level

There are three main levels at which undergraduate courses are offered by a university, 100 level being first-year, 200 level being second-year, and 300 level being third-year (often the final year of a bachelor's degree).

Admission Ad Eundem Statum

Ad eundem statum means "with equivalent status".

Domestic students who received their schooling in another country may be eligible for this admission based on their school-leaving qualification. As requirements vary such students should seek advice from the university they wish to attend.

This form of admission is also used for students who have studied in New Zealand and gained a university entrance equivalent such as the CAIE examinations or International Baccalaureate.

Approved subjects

To qualify for University Entrance, students must complete the required credits in approved subjects at NCEA Level 3. A list of approved subjects for the current year, as well as for previous years, can be found on the NZQA website.

Certificate

A coherent qualification at the pre-degree level of 60–120 credits, designed to provide a student with a basic tertiary level qualification in an area of study.

Certificate of Proficiency (COP)

A Certificate of Proficiency (also known as Individual Paper Credit) is not a qualification like a degree, diploma or certificate. The term is reserved for when a student wishes to take a course at a university without crediting it to a qualification. The reasons for doing so may be simply to pursue a personal interest, improve the chances of employment or make progress towards registration for a profession.

Co-requisites

A specified course that must be taken at the same time as another course, unless a student has already successfully completed it.

Course / paper

Usage varies but either term can refer to the smallest unit of work in which a student can enrol, identified by a unique code, and delivered by means of lectures, tutorials, seminars, etc. or in distance mode by correspondence or electronically. The length of a course is generally one semester.

Diploma

A qualification at the undergraduate or pre-degree level of 120 credits, which may build on defined prior qualifications or experience, of which at least 72 credits must be at the level assigned to the diploma.

Discretionary Entrance

Discretionary Entrance provides a route to university study for students who have not achieved University Entrance. The chief features of the regulations are as follows:

- They apply only to New Zealand or Australian citizens and permanent residents under 20 years of age.
- Applicants must have a minimum of 14 credits in an approved subject at Level 2 towards NCEA.
- Applicants must also have met the literacy and numeracy standards required for University Entrance.
- Application must be made to the university of choice and a fee may be payable.
- A reference from a school principal or another suitable person is required and there may be an interview.

Admission will be at the discretion of the university concerned, with the proviso that a student who has undertaken Year 13 study beyond 1 June at a NZ secondary school may normally not be admitted under the Discretionary Entrance provisions before July in the following year.

Distance education

An alternative to courses studied on-campus, courses studied by distance learning can be completed at home or in the workplace. Access to resources and student support are usually provided using internet-based media and digital technology. Some courses may include a brief period of on-campus attendance.

EFTS

Equivalent full-time students

Faculty / School / Department / College

A faculty is an academic section of a university dedicated to either a particular discipline (Faculty of Science), or several related disciplines (Faculty of Humanities and Social Sciences). Each faculty contains Schools and/or Departments – academic units that are responsible for teaching a particular subject (Department of Chemistry), or a collection of related subjects (School of Art History, Classics and Religious Studies). A Faculty may also be known as a College.

Foundation Courses, or Programmes

Foundation programmes provide the necessary skills and knowledge for students who do not meet minimum entry requirements for a university course, and help prepare students for university study.

Foundation Certificate

A qualification at the pre-degree level, with a total value of not fewer than 60 credits and not more than 120 credits*, which is designed to provide an introductory and coherent programme that encourages the student to undertake tertiary studies and/or equips the student with the skills needed to successfully attempt a tertiary level course of study.

*Students who have completed Year 13 at a secondary school may take a 60-credit certificate. Students who have completed only Year 12 must take a 120-credit certificate.

Halls of Residence

Are normally for full-time students who typically stay for the full academic year. It's a type of accommodation. They provide a warm and welcoming community to help you make the most of your time at university.

Internships and work placement

An internship or work placement are usually temporary, and generally consist of an exchange of services for experience between the student and an employer.

Lecture

Lectures involve large groups of students and are the core teaching method in most courses.

Major / major subject

A substantial component of a degree (usually at least onethird and often consisting of one subject only) selected by the student, in accordance with the regulations, as the principal area of study for the degree.

Minor / minor subject

A component of an undergraduate degree, usually of at least 60 credits, in a subject area selected by the student, in accordance with the regulations, to formally recognise a secondary area of study for the degree. Minors need not be a compulsory component of a degree.

NCFA

The National Certificate of Educational Achievement is the national qualification system for secondary school students in NZ. It is administered by NZQA.

O Week

Orientation Week is a period, usually at the beginning of a semester, with the aim of helping new students settle in to their university. It is an opportunity to join clubs, meet new people, and learn some academic study skills.

Open Days

An opportunity for future students to visit the universities, explore different study options, tour the campuses and halls of residence, talk to current students, and get their first experience of student life.

Part-Time / Full-Time Study

A normal first-year workload is usually 120 points for full-time students, or less than 96 points for part-time students.

A qualification studied part-time or full-time involves the same work, but the part-time qualification will take longer to complete.

Postgraduate course

Study at 400 level and above, undertaken after attaining a Bachelor's degree in the same or similar subject.

Prerequisites

A paper that must be completed successfully before being able to take another paper or course.

Programme

The requirements set down by a university, in the form of regulations, for the completion of a qualification, generally expressed in terms of eligibility to enrol, duration (years or credits), and the courses to be included, together with regulations covering matters such as practical work, cross-credits and exemptions, preparation and submission of a thesis etc. May also be used for a defined set of courses that do not lead to a qualification.

Also, used by some universities (a) as a synonym for major or (b) in reference to an individual student's selection from the requirements.

Qualification

A degree, diploma or certificate approved in terms of Section 253A of the Education Act 1989; or a degree, diploma or certificate approved by the Curriculum Committee of the University Grants Committee (disestablished 1990) or a degree, diploma or certificate offered by the University of New Zealand (disestablished 1961) and still on the books of the universities.

Satellite campus

A campus which is physically located at a different location to the main university campus.

Semester / Trimester

A period of approximately 15 weeks, of which 12 - 13 are teaching weeks, and the remainder vacation and examinations.

Special Admission

Persons over the age of 20 years, who are New Zealand or Australian citizens or permanent residents of either country, may enrol at a New Zealand university without having obtained a university entrance qualification. Further information is available from each university.

Student Union

The Student Union is a representative body that advocates for the interests of students within the university.

Subject

An academic discipline such as economics, anthropology, physics, offered through courses at various levels which are taken sequentially.

Tauira / Ākonga

A Māori word meaning student in this context. Ākonga can also be used to mean student or pupil.

Tutorial

Tutorials are facilitated by a tutor, involve smaller groups of students and are the forum for debating lecture topics, asking questions and seeking any help you need.

University Prospectus

This is a publication that contains specific detailed information about a particular university.

University Entrance Standard

The minimum standard required for entrance to a NZ university, established by NZQA, may be met in several ways (some of which are no longer available, but students who have met them are eligible to enrol at a university).

Some universities have adopted additional standards for entry, above the University Entrance standard, for admission either to some or all their programmes. For more information, visit the universities' websites.

Undergraduate course

Study at 100 level to 300 level, such as a certificate, diploma, or Bachelor's degree.

Withdrawal date

The date that you must withdraw from a course to be eligible for a refund of the course fees.
